Programme

Chairmen R.G. Knowles (UK) & P.L. Nicotera (FRG)

9.00-9.30 Richard G Knowles (UK)

Pathophysiology of Nitric Oxide

9.30-10.00 Rachel Babbedge (UK)

Selective nNOS Inhibitors: Implications in Pathology

10.00-10.30 Carlo Nucci, Silvia Piccirilli & Giacinto Bagetta (Italy)

Role of Nitric Oxide in Apoptotic Death in the Developing Visual System

10.30-11.00 Coffee Break

Chairmen R. Babbedge (UK) & G. Bagetta (Italy)

11.00-11.30 Pierluigi Nicotera (FRG)

Nitric Oxide-Dependent Excitotoxicity in Neuronal Cells

11.30-12.00 Gerry Melino & M. Tiziana Corasaniti (Italy)

S-Nitrosylation in Neuroblastoma Cell Death

12.00-12.30 Vincenzo Mollace (Italy)

Role of Astroglial iNOS in Experimental Neuro-AIDS In Vitro

12.30-13.00 Bernhard Brune (FRG)

Nitric Oxide Regulator of Cell Death and Survival
